Sankar Nagar, Tirunelveli - 627357

Motivated computer science graduate with a strong foundation in programming and web development. Seeking an entry-level position in information technology to apply technical skills and contribute to project success. Demonstrated ability to learn quickly and adapt to new technologies, with a proven track record of completing projects on time and to specification.

Education

Master of Science in Computer Science

St.Xavier's College(Autonomous) | Palayamkottai, Tirunelveli, TamilNadu

June 2022 - May 2024

Grade - 9.1

Bachelor of Science in Computer Science

St.Xavier's College(Autonomous) | Palayamkottai, Tirunelveli, TamilNadu

June 2019 - April 2022

Grade - 8.7

Hard Skills

Programming Languages :

- PHP, C, C++, Python

Web Technologies :

- HTML, CSS, Javascript, React native, Bootstrap, Ajax

Database Management :

- MYSQL

Added skills :

- Laravel, Css Components

Soft Skills

- Web Development
 - Analyzing Code structure
 - Problem Solving Skills
 - Team work
 - Creativity
 - Quick Learning Eligibility
 - Time Management
 - Adaptability
-

Certification Courses

- NPTEL - Python for Data Science
- Cisco - Cybersecurity Essentials
- Cisco - Introduction to IOT
- Cisco - Entrepreneurship
- Cisco - Introduction to Packet Tracer
- Mathworks - Machine Learning Onramp
- Mathworks - Deep Learning Onramp

Internship

Acme Infotek, Palayamkottai | Tirunelveli, TamilNadu (www.acmeinfotek.com)

- Successfully completed 15 days internship as part of the college curriculum at AcmeInfotek.

Projects

1.Student Result Management (Web Application)

- Environment : PHP, HTML, Bootstrap
- Database Used : MYSQL

Project Overview :

- A student result management project is a software system that organizes student academic data, including grades and records, within an educational institution.
- It features user authentication, grading systems, result entry, analysis, and aiming to streamline administrative tasks and enhance academic efficiency.

2.Attendance Management System (Web Application)

- Environment : PHP, HTML, Bootstrap, Css
- Database Used : MYSQL

Project Overview :

- An attendance management system automates tracking and monitoring of student or employee attendance, offering features like authentication, reporting, and integration with other systems.
- Its aim is to streamline attendance monitoring, reduce errors, and enhance organizational efficiency and accountability.

3.Doctor Appointment System (Web Application)

- Environment : PHP, HTML, Bootstrap, Css
- Database Used : MYSQL

Project Overview :

- A doctor appointment system automates scheduling and management of appointments between patients and healthcare providers, featuring patient registration, appointment scheduling, doctor availability management and billing.
- Its aim is to streamline the booking process, minimize conflicts, and improve healthcare service efficiency.

4.Online Food Recipe System (Web Application)

- Environment : PHP, HTML, Bootstrap, Css, Javascript, Ajax
- Database Used : MYSQL

Project Overview :

- An online food recipe system is a web platform allowing users to browse, search and save recipes.
 - It provides features like user registration, bookmarking, ratings, and reviews, aiming to enhance cooking experiences and culinary exploration.
