EDUCATION

- **Master of Science in Computer Science**
St.Xavier's College (Autonomous), Palayamkottai, Tirunelveli
June 2022 - May 2024
Grade - 9.1
- **Bachelor of Science in Computer Science**
St.Xavier's College (Autonomous), Palayamkottai, Tirunelveli
June 2019 - April 2022
Grade - 8.7

HARD SKILLS

- **Programming Languages:** PHP, C, C++, Java
- **Web Technologies:** HTML
- **Database Management:** MYSQL
- **Added skills:** Laravel, Bootstrap

SOFT SKILLS

- Web Development
- Team work
- Creativity
- Quick Learning Eligibility
- Time Management
- Adaptability

Certification Courses

- **NPTEL** - Python for data Science
- **Cisco** - Cybersecurity Essentials
- **Mathworks** - Machine Learning Onramp
- **Mathworks** - Deep Learning Onramp

PROJECTS

Student Result Management System

- A student result management project is a software system that organizes student academic data, including grades and records, within an educational institution.
- It features user authentication, grading systems, result entry, analysis, and aiming to streamline administrative tasks and enhance academic efficiency.

Technologies used : PHP, MYSQL, HTML, Bootstrap

Attendance Management System

- An attendance management system automates tracking and monitoring of student or employee attendance, offering features like authentication, reporting, and integration with other systems.
- Its aim is to streamline attendance monitoring, reduce errors, and enhance organizational efficiency and accountability.

Technologies used : PHP, MYSQL, HTML, Bootstrap, Css

Online Food Recipe System

- An online food recipe system is a web platform allowing users to browse, search and save recipes.
- It provides features like user registration, bookmarking, ratings, and reviews, aiming to enhance cooking experiences and culinary exploration.

Technologies used : PHP, MYSQL, HTML, Bootstrap, Css, Javascript, Ajax

INTERNSHIP EXPERIENCE

ACME INFOTEK, PALAYAMKOTTAI | TIRUNELVELI, TAMILNADU
MAY 2023 - JUNE 2023

Doctor Appointment System

During my internship, I developed a doctor appointment system automates scheduling and management of appointments between patients and healthcare providers, featuring patient registration, appointment scheduling, doctor availability management and billing.

- Developed a full-stack web application using PHP and MYSQL.
- Gained experience in database design, query optimization and data modeling.

Technologies used : PHP, MYSQL, HTML, Bootstrap, Css

Achievements and Awards

XACS Blog Manager

Xavierian Association of Computer Science
XACS (2023 - 2024)
St.xavier's College(Autonomous)

Best Performer Award

Department of Computer Science
2023 - 2024
St.xavier's College(Autonomous)
